December 31, 2023 (Unaudited)

Fellow FROPX Shareholders:

The Flat Rock Opportunity Fund (the "Fund") had a solid performance in 2023 with an 18.65% return. Since inception in July of 2018, the Fund's annualized return of 11.74% modestly trailed the S&P 500 Index, but with less than 1/3 of the volatility. Since inception the Fund has significantly outperformed the Bloomberg US High Yield Index and the Morningstar LSTA Leveraged Loan Index.

Fund Performance (Net)^(a)

	2023 Full Year	2022 Full Year	Annualized Return Since Inception on 7/2/2018	Standard Deviation Since Inception on 7/2/2018
Flat Rock Opportunity Fund	18.65%	-2.15%	11.74%	6.54%
S&P 500 Index	26.29%	-18.11%	12.63%	21.02%
Bloomberg US Corporate High Yield Bond Index	13.45%	-11.19%	4.48%	6.16%
Morningstar LSTA U.S. Leveraged Loan Index	13.32%	-0.77%	4.93%	3.71%

(a) Performance data is per Bloomberg as of 12/31/23, and includes the reinvestment of distributions.

The performance data quoted here represents past performance. Current performance may be lower or higher than the performance quoted above. Investment return and principal value will fluctuate, so that shares, when repurchased, may be worth more or less than their original cost. Past performance is no guarantee of future results. A Fund's performance, especially for very short periods of time, should not be the sole factor in making your investment decisions.

The Fund ended the year with a distribution yield of 14.36%, which was covered by our Fund's net investment income. Returns for the year were composed of monthly distributions and modest price appreciation in our investments. We believe CLO equity securities are still priced at discounted levels and that there exists the potential for continued price appreciation in our portfolio.

During the year, predictions for a recession abated and the Morningstar LSTA U.S. Leveraged Loan Index increased from 92.44 to 96.23. Increasing loan prices imply less risk of default for the CLO's loans. When we model projected returns for our CLOs, we generally assume that 2% of the loans will default each year. This projected default rate can be considered a loan loss reserve. At year end our weighted average CLO equity default rate was 1.6% which is favorable to our projections.

During the year the CLO AAA spread declined from 1.85% over SOFR to 1.18%.¹ A lower CLO financing cost could provide attractive opportunities for us to refinance our CLOs at more favorable rates or lengthen their reinvestment periods. Both types of transactions have the potential to be accretive to equity returns.

In the CLOs we own, the loans are floating rate based on SOFR and these base rates reset every one-to-six months. Given the structure of CLOs, distributions to CLO equity positions are impacted

December 31, 2023 (Unaudited)

by changes in base rates, and higher rates should result in higher equity distributions from the CLOs in our portfolio.

The Fund has grown to over \$341 million of assets at fair market value on December 31, 2023. We think Fund growth has primarily been driven by investors seeking exposure to first lien, secured loans via investments in CLOs. Our Fund offers investors a published daily Net Asset Value, SEC regulation and reporting, minimum 5% quarterly liquidity, and the ability to invest directly into a diversified fund using our ticker, FROPX.

As always, if you have any questions, feel free to reach out.

Sincerely,

Robert Grunewald
Chief Executive Officer and Founder

¹⁾ *Palmer Square CLO AAA Index*

Glossary: Standard Deviation is measure that provides the dispersion around a mean. The S&P 500 Index or the Standard & Poor's 500 Index is a market-capitalization-weighted index of the 500 largest U.S. publicly traded companies. The Morningstar LSTA U.S. Leveraged Loan Index is a market value weighted index designed to capture the performance of the U.S. leveraged loan market. The Bloomberg US Corporate High Yield Bond Index measures the USD-denominated, high yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody's, Fitch and S&P is Ba1/BB+/BB+ or below. The index excludes bonds from emerging markets.

Consider the investment risks, charges, and expenses of the Fund carefully before investing. Other information about the Fund may be obtained at <https://flatrockglobal.com/flat-rock-opportunity-fund/>. Please read it carefully.

The Fund is suitable for investors who can bear the risks associated with the Fund's limited liquidity and should be viewed as a long-term investment. Our shares have no history of public trading, nor is it intended that our shares will be listed on a national securities exchange at this time, if ever. No secondary market is expected to develop for our shares; liquidity for our shares will be provided only through quarterly repurchase offers for no less than 5% of our shares at net asset value, and there is no guarantee that an investor will be able to sell all the shares that the investor desires to sell in the repurchase offer. Due to these restrictions, an investor should consider an investment in the Fund to be of limited liquidity. Investing in our shares may be speculative and involves a high degree of risk, including the risks associated with leverage. Investing in the Fund involves risks, including the risk that shareholder may lose part or all of their investment. We intend to invest primarily in the equity and, to a lesser extent, in the junior debt tranches of CLOs that own a pool of senior secured loans. Our investments in the equity and junior debt tranches of CLOs are exposed to leveraged credit risk. Investments in the lowest tranches bear the highest level of risk. We may pay distributions in significant part from sources that may not be available in the future and that are unrelated to our performance, such as a returns of capital or borrowing. The amount of distributions that we may pay, if any, is uncertain. ALPS Distributors Inc. serves as our principal underwriter, within the meaning of the 1940 Act, and will act as the distributor of our shares on a best efforts' basis, subject to various conditions.

INVESTMENT OBJECTIVE

Flat Rock Opportunity Fund's (the "Fund") investment objective is to generate current income and, as a secondary objective, long-term capital appreciation.

PERFORMANCE as of December 31, 2023

	Average Annual Returns				
	6 Month	1 Year	3 Year	5 Year	Since Inception ⁽¹⁾
Flat Rock Opportunity Fund ⁽²⁾⁽⁶⁾	13.69%	18.65%	12.97%	13.33%	11.74%
S&P 500 Index ⁽³⁾	8.04%	26.29%	10.00%	15.69%	12.63%
Bloomberg U.S. Corporate High Yield Bond Index ⁽⁴⁾	7.66%	13.45%	1.98%	5.37%	4.48%
Morningstar LSTA U.S. Leveraged Loan Index ⁽⁵⁾	6.43%	13.32%	5.76%	5.79%	4.93%

⁽¹⁾ The Fund commenced operations on July 2, 2018.

⁽²⁾ Performance returns are net of management fees and other Fund expenses.

⁽³⁾ The Standard & Poor's 500 Stock Index (S&P 500) is a capitalization-weighted index, representing the aggregate market value of the common equity of 500 large-capitalization stocks primarily traded on the New York Stock Exchange.

⁽⁴⁾ The Bloomberg U.S. Corporate High Yield Bond Index measures the USD-denominated, high yield, fixed-rate corporate bond market.

⁽⁵⁾ The Morningstar LSTA U.S. Leveraged Loan Index is a market value weighted index designed to capture the performance of the U.S. leveraged loan market.

⁽⁶⁾ The return shown is based on net asset value calculated for shareholder transactions and may differ from the return shown in the Financial Highlights, which reflects adjustments made to the net asset value in accordance with accounting principles generally accepted in the United States of America.

Performance data quoted represents past performance, which is not a guarantee of future results. Current performance may be lower or higher than the performance quoted. The principal value and investment return of an investment will fluctuate so that your shares, if repurchased, may be worth more or less than their original cost. Total return measures net investment income and capital gain or loss from portfolio investments. All performance shown assumes reinvestment of dividends and capital gains distributions. Investors cannot invest directly in an index.

Flat Rock Opportunity Fund is a continuously offered, non-diversified, closed-end management investment company that is operated as an interval fund. The Fund is suitable only for investors who can bear the risks associated with the Fund's limited liquidity and should be viewed as a long-term investment. The Fund's shares have no history of public trading, nor is it intended that its shares will be listed on a national securities exchange at this time, if ever. Investing in the Fund's shares may be speculative and involves a high degree of risk, including the risks associated with leverage. Investing in the Fund involves risk, including the risk that shareholders may receive little or no return on their investment or that shareholders may lose part or all of their investment. The Fund intends to invest primarily in the equity and, to a lesser extent, in the junior debt tranches of CLOs that own a pool of senior secured loans made to companies whose debt is rated below investment grade or, in limited circumstances, unrated. The Fund's investments in the equity and junior debt tranches of CLOs are

December 31, 2023 (Unaudited)

exposed to leveraged credit risk. Investments in the lowest tranches bear the highest level of risk. The Fund may pay distributions in significant part from sources that may not be available in the future and that are unrelated to its performance, such as a return of capital or borrowings. The amount of distributions that the Fund may pay, if any, is uncertain.

GROWTH OF A HYPOTHETICAL \$10,000 INVESTMENT

The graph below illustrates the growth of a hypothetical \$10,000 investment assuming the purchase of common shares at the NAV of \$20.00 on July 2, 2018 (commencement of operations) and tracking its progress through December 31, 2023.

The hypothetical \$10,000 investment at inception includes changes due to share price and reinvestment of dividends and capital gains. The chart does not imply future performance. Indexes are unmanaged, do not incur fees, expenses or taxes, and cannot be invested in directly. Performance quoted does not include a deduction for taxes that a shareholder would pay on the repurchase of fund shares.

^(a) Collateralized Loan Obligations ("CLO") equity positions are entitled to recurring distributions which are generally equal to the remaining cash flow of payments made by underlying securities less contractual payments to debt holders and fund expenses. The effective yield is estimated based upon the current projection of the amount and timing of these recurring distributions in addition to the estimated amount of terminal principal payment. Effective yields for the CLO equity positions are updated generally once a quarter or on a transaction such as an add-on purchase, refinancing or reset. The estimated yield and investment cost may ultimately not be realized. Total fair value of the securities is \$270,508,689, which represents 119.25% of net assets as of December 31, 2023.

^(b) All or a portion of the security has been pledged as collateral in connection with the credit facility with certain funds and accounts managed by Eagle Point Credit Management, LLC (the "Credit Facility"). At December 31, 2023, the value of securities pledged amounted to \$329,259,603, which represents approximately 145.15% of net assets.

^(c) The level 3 assets were a result of unavailable quoted prices from an active market or the unavailability of other significant observable inputs.

^(d) Securities exempt from registration under Rule 144A of the Securities Act of 1933. These securities are not restricted and may normally be sold to qualified institutional buyers in transactions exempt from registration. Total fair value of Rule 144A securities amounts to \$315,760,597, which represents 139.20% of net assets as of December 31, 2023.

^(e) Estimated yield.

^(f) Positions represent investments in a warehouse facility, which is a financing structure intended to aggregate loans that may be used to form the basis of a CLO position.

For a share outstanding throughout each of the years presented

- (a) Based on average shares outstanding during the period.*
- (b) Total return in the above table represents the rate that the investor would have earned or lost on an investment in the Fund, assuming reinvestment of dividends.*
- (c) Interest expense relates to the Fund's Credit Facility (see Note 9) and includes amortization of debt issuance costs as well as distributions on mandatorily redeemable preferred stock (see Note 10).*
- (d) Calculated by subtracting the Fund's total liabilities (excluding the Credit Facility and accumulated unpaid interest on Credit Facility) from the Fund's total assets and dividing by the outstanding Credit Facility balance.*
- (e) Asset coverage ratio is calculated by subtracting the Fund's total liabilities (excluding the liquidation value of the Mandatorily Redeemable Preferred Stock including distributions payable on Mandatorily Redeemable Preferred Stock) from the Fund's total assets and dividing by the liquidation value of the Mandatorily Redeemable Preferred Stock. The asset coverage per share figure is expressed in terms of dollar amounts per share of outstanding Preferred Stock.*

1. ORGANIZATION

Flat Rock Opportunity Fund (the "Fund") is registered under the Investment Company Act of 1940, as amended, (the "1940 Act") as a non-diversified, closed-end management investment company. The shares of beneficial interest of the Fund (the "Shares") are continuously offered under Rule 415 under the Securities Act of 1933, as amended (the "Securities Act"). The Fund operates as an interval fund pursuant to Rule 23c-3 under the 1940 Act, and has adopted a fundamental policy to conduct quarterly repurchase offers at net asset value ("NAV").

The Fund's investment objective is to generate current income and, as a secondary objective, long-term capital appreciation.

The Fund was formed as a Delaware statutory trust on February 12, 2018 and operates pursuant to a Second Amended and Restated Agreement and Declaration of Trust governed by and interpreted in accordance with the laws of the State of Delaware. The Fund had no operations from that date to July 2, 2018, other than those related to organizational matters and the registration of its shares under applicable securities laws.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Fund in preparation of its financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Fund is an investment company under U.S. GAAP and follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 946.

Use of Estimates: The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of increases and decreases in net assets from operations during the period. Actual results could differ from these estimates.

Preferred Shares: In accordance with ASC 480-10-25, the Fund's mandatorily redeemable preferred stock have been classified as debt on the Statement of Assets and Liabilities. Refer to "Note 10. Mandatorily Redeemable Preferred Stock" for further details.

Security Valuation: The Fund records its investments at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The valuation techniques used to determine fair value are further described below. The Fund determines the NAV of its shares daily as of the close of regular trading (normally, 4:00 p.m., Eastern time) on each day that the New York Stock Exchange ("NYSE") is open for business.

Equity securities for which market quotations are available are generally valued at the last sale price or official closing price on the primary market or exchange on which they trade.

Short-term debt securities having a remaining maturity of 60 days or less when purchased are valued at cost adjusted for amortization of premiums and accretion of discounts, which approximates fair value.

The Fund's Board of Trustees (the "Board") is responsible for the valuation of the Fund's portfolio investments for which market quotations are not readily available, as determined in good faith pursuant to the Fund's valuation policy and consistently applied valuation process. Rule 2a-5 under the 1940 Act sets forth the requirements for determining fair value in good faith. Determining fair value in good faith requires (i) assessment and management of risks, (ii) establishment of fair value methodologies, (iii) testing of fair value methodologies, and (iv) evaluation of pricing services. The Board is responsible for fair value determination. The day-to-day implementation of the Fund's fair valuation process is performed by Flat Rock Global, LLC (the "Adviser"), under the oversight and supervision of the Board. The Adviser is not considered a valuation designee for purposes of Rule 2a-5 of the 1940 Act.

It is the policy of the Fund to value its portfolio securities using market quotations when readily available. For purposes of this policy, a market quotation is readily available only when that quotation is a quoted price (unadjusted) in active markets for identical investments that the Fund can access at the measurement date, provided that a quotation will not be readily available if it is not reliable. If market quotations are not readily available, securities or other assets will be valued at their fair market value as determined using the valuation methodologies approved by the Board.

The Fund primarily invests in the equity and, to a lesser extent, in the junior debt tranches of collateralized loan obligations ("CLOs"). In valuing such investments, the Adviser considers a number of factors, including: 1) the indicative prices provided by a recognized, independent third-party industry pricing service, and the implied yield of such prices; 2) recent trading prices for specific investments; 3) recent purchases and sales known to the Adviser in similar securities; 4) the indicative prices for specific investments and similar securities provided by the broker who arranges transactions in such CLOs; and 5) the Adviser's own models, which will incorporate key inputs including, but not limited to, assumptions for future loan default rates, recovery rates, prepayment rates, and discount rates - all of which are determined by considering both observable and third-party market data and prevailing general market assumptions and conventions, as well as those of the Adviser. While the use of an independent third-party industry pricing service can be a source for valuing its CLO investments, the Adviser will not use the price provided by a third-party service if it believes that the price does not accurately reflect fair value, and will instead utilize another methodology outlined above to make its own assessment of fair value.

The Fund may also invest directly in senior secured loans of U.S. middle-market companies ("Senior Loans") (either in the primary or secondary markets). The Fund's Senior Loans are valued without accrued interest, and accrued interest is reported as income in the Fund's statement of operations.

Certain of the Senior Loans held by the Fund will be broadly syndicated loans. Broadly syndicated loans will be valued by using readily available market quotations or indicative market quotations provided by an independent, third-party pricing service.

For each Senior Loan held by the Fund, that is either: 1) not a broadly syndicated loan; or 2) is a broadly-syndicated loan but has limited liquidity such that the Adviser determines that readily available or indicative market quotations do not reflect fair value, the Adviser will employ the

December 31, 2023

methodology it deems most appropriate to fair value the Senior Loan. For the period before such a Senior Loan begins providing quarterly financial updates, the Senior Loan's fair value will usually be listed as the cost at which the Fund purchased the Senior Loan. For all other such Senior Loans, the Adviser will fair value each of these on a quarterly basis after the underlying portfolio company has reported its most recent quarterly financial update. These fair value calculations involve significant professional judgment by the Adviser in the application of both observable and unobservable attributes, and it is possible that the fair value determined for a Senior Loan may differ materially from the value that could be realized upon the sale of the Senior Loan. There is no single standard for determining the fair value of an investment. Accordingly, the methodologies the Adviser may use to fair value the Senior Loan may include: 1) fair values provided by an independent third-party valuation firm; 2) mark-to-model valuation techniques; and 3) matrix pricing.

For each Senior Loan that is either: 1) not a broadly syndicated loan; or 2) is a broadly-syndicated loan but has limited liquidity such that the Adviser determines that readily available or indicative market quotations do not reflect fair value, the Adviser may adjust the value of the Senior Loan between quarterly valuations based on changes in the capital markets. To do this, as a proxy for discount rates and market comparables, the Adviser may look to the Morningstar LSTA U.S. Leveraged Loan 100 Index (the "LSTA Index"). The LSTA Index is an equal value-weighted index designed to track the performance of the largest U.S. leveraged loan facilities. The LSTA Index is comprised of senior secured loans denominated in U.S. dollars that meet certain selection criteria. If there are significant moves in the LSTA Index, the Adviser may adjust the value of the Senior Loan using its discretion.

In addition, the values of the Fund's Senior Loans may be adjusted daily based on changes to the estimated total return that the asset will generate. The Adviser will monitor these estimates and update them as necessary if macro or individual changes warrant any adjustments.

Federal Income Taxes: The Fund has elected to be treated for U.S. federal income tax purposes as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended. Accordingly, the Fund will generally not pay corporate-level U.S. federal income taxes on any net ordinary income or capital gains that are timely distributed to shareholders. To qualify as a RIC, the Fund must, among other things, meet certain source-of-income and asset diversification requirements and timely distribute at least 90% of its investment company taxable income each year to its shareholders.

As of and during the year ended December 31, 2023, the Fund did not have a liability for any unrecognized tax benefits. The Fund files U.S. federal, state, and local tax returns as required. The Fund's tax returns are subject to examination by the relevant tax authorities until expiration of the applicable statute of limitations which is generally three years after the filing of the tax return for federal purposes and four years for most state returns.

The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expenses on the Statement of Operations. During the year ended December 31, 2023, the Fund did not incur any interest or penalties.

Securities Transactions and Investment Income: Investment security transactions are accounted for on a trade date basis. Dividend income is recorded on the ex-dividend date. Discounts and

premiums on securities purchased are amortized or accreted using the effective interest method. Realized gains and losses from securities transactions and unrealized appreciation and depreciation of securities are determined using the identified cost basis method for financial reporting purposes. Interest income from investments in the “equity” tranche of CLO funds will be recorded based upon an estimate of an effective yield to expected maturity utilizing assumed cash flows.

Distributions to Shareholders: The Fund normally pays dividends, if any, monthly, and distributes capital gains, if any, on an annual basis. Income dividend distributions are derived from dividends and interest income the Fund receives from its investments, including short term capital gains. Long term capital gain distributions are derived from gains realized when the Fund sells a security it has owned for more than one year.

Cash and Cash Equivalents: Cash and cash equivalents (e.g., U.S. Treasury bills) may include demand deposits and highly liquid investments with original maturities of three months or less. Cash and cash equivalents are carried at cost, which approximates fair value. The Fund deposits its cash and cash equivalents with highly-rated banking corporations and, at times, may exceed the insured limits under applicable law.

3. FAIR VALUE MEASUREMENTS

The Fund utilizes various inputs to measure the fair value of its investments. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity’s own assumptions about the assumptions market participants would use in pricing the asset or liability that are developed based on the best information available. These inputs are categorized in the following hierarchy under applicable financial accounting standards:

- Level 1** - Unadjusted quoted prices in active markets for identical assets and liabilities that the Fund has the ability to access at the measurement date.
- Level 2** - Significant observable inputs (including quoted prices for the identical instrument on an inactive market, quoted prices for similar instruments, interest rates, prepayment spreads, credit risk, yield curves, default rates and similar data).
- Level 3** - Significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of the investments) to the extent relevant observable inputs are not available, for the asset or liability at the measurement date.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

December 31, 2023

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The inputs used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following table summarizes the inputs used to value the Fund's investments under the fair value hierarchy levels as of December 31, 2023:

Investments in Securities at Value	Valuation Inputs			Total
	Level 1	Level 2	Level 3	
Collateralized Loan Obligations				
Equity	\$ -	\$ -	\$ 270,508,689	\$ 270,508,689
Collateralized Loan Obligations				
Debt	-	-	45,251,907	45,251,907
Short Term Investments	13,499,007	-	-	13,499,007
Total	\$ 13,499,007	\$ -	\$ 315,760,596	\$ 329,259,603

The following is a reconciliation of the fair value of investments for which the Fund has used Level 3 unobservable inputs in determining fair value as of December 31, 2023:

	Collateralized Loan Obligations Equity	Collateralized Loan Obligations Debt	Total
Balance as of December 31, 2022	\$ 238,148,256	\$ 41,364,745	\$ 279,513,001
Accrued discount/premium	(7,735,907)	1,592,197	(6,143,710)
Realized gain/(loss)	(1,342,706)	927,513	(415,193)
Change in unrealized appreciation/(depreciation)	4,323,380	1,298,074	5,621,454
Purchases	85,065,966	21,295,494	106,361,460
Sales proceeds	(47,950,300)	(21,226,116)	(69,176,416)
Transfer into Level 3	-	-	-
Transfer out of Level 3	-	-	-
Balance as of December 31, 2023	\$ 270,508,689	\$ 45,251,907	\$ 315,760,596
Net change in unrealized appreciation/(depreciation) included in Statements of Operations attributable to Level 3 investments held at December 31, 2023	\$ 2,837,396	\$ 863,989	\$ 3,701,385

December 31, 2023

The following table summarizes the valuation techniques and significant unobservable inputs used for the Fund's investments that are categorized in Level 3 of the fair value hierarchy as of December 31, 2023:

Assets	Fair Value as of 12/31/23	Valuation Techniques / Methodologies	Unobservable Input	Range / Weighted Average⁽²⁾	Impact to Valuation from an Increase in Input⁽³⁾
Collateralized Loan Obligations Equity	\$185,675,132	Market Quotes	NBIB ⁽¹⁾	39.92 - 106.47 / 69.66	N/A
	\$35,998,000	Recent Transaction	Acquisition Cost	84.26 - 100.00 / 92.07	N/A
	\$48,835,557	Yield Analysis	Internal Rate of Return	17.30% - 22.00% / 19.21%	Decrease
Collateralized Loan Obligations Debt	\$45,251,907	Market Quotes	NBIB ⁽¹⁾	65.58 - 100.03 / 92.60	N/A

⁽¹⁾ The Fund generally uses non-binding indicative bid prices ("NBIB") provided by an independent pricing service or broker on the valuation date as the primary basis for the fair value determinations for CLO debt and equity investments, which may be adjusted for pending equity distributions as of the valuation date. These prices are non-binding, and may not be determinative of fair value. Each price is evaluated by the Board of Directors in conjunction with additional information compiled by Flat Rock Global, including performance and covenant compliance information as provided by the respective CLO's independent trustee.

⁽²⁾ Weighted averages are calculated based on fair value of investments.

⁽³⁾ The impact on fair value measurement of an increase in each unobservable input is in isolation.

Unobservable Input	Impact to Value if Input Increases	Impact to Value if Input Decreases
Broker Quotes	Increase	Decrease
Acquisition Cost	Increase	Decrease

4. INVESTMENT ADVISORY SERVICES AND OTHER AGREEMENTS

Flat Rock Global, LLC serves as the investment adviser to the Fund pursuant to the terms of an investment advisory agreement (the "Advisory Agreement"). Under the terms of the Advisory Agreement, the Adviser provides the Fund such investment advice as it deems advisable and furnishes a continuous investment program for the Fund consistent with the Fund's investment objective and strategies. As compensation for its management services, the Fund pays the Adviser a management fee of 1.375% (as a percentage of the average daily value of total assets), paid monthly in arrears, calculated based on the average daily value of total assets during such period.

In addition to the management fee, the Adviser is entitled to an incentive fee. The incentive fee is calculated and payable quarterly in arrears in an amount equal to 15.0% of the Fund's "pre-incentive fee net investment income" for the immediately preceding quarter, and is subject to a hurdle rate, expressed as a rate of return on the Fund's "adjusted capital," equal to 2.00% per quarter (or an annualized hurdle rate of 8.00%), subject to a "catch-up" feature, which allows the Adviser to recover foregone incentive fees that were previously limited by the hurdle rate. For this purpose,

December 31, 2023

“pre-incentive fee net investment income” means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that the Fund receives from portfolio companies) accrued during the calendar quarter, minus the Fund’s operating expenses for the quarter (including the management fee, expenses reimbursed to the Adviser for any administrative services provided by the Adviser and any interest expense and distributions paid on any issued and outstanding preferred shares, but excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with payment-in-kind interest and zero coupon securities), accrued income that the Fund has not yet received in cash. Pre-incentive fee net investment income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. “Adjusted capital” means the cumulative gross proceeds received by the Fund from the sale of shares (including pursuant to the Fund’s distribution reinvestment plan), reduced by amounts paid in connection with purchases of the Fund’s shares pursuant to the Fund’s repurchase program.

The calculation of the incentive fee on pre-incentive fee net investment income for each quarter is as follows:

- No incentive fee is payable in any calendar quarter in which the Fund’s pre-incentive fee net investment income does not exceed the hurdle rate of 2.00% per quarter (or an annualized rate of 8.00%);
- 100% of the Fund’s pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than or equal to 2.352%. This portion of the Fund’s pre-incentive fee net investment income (which exceeds the hurdle rate but is less than or equal to 2.352%) is referred to as the “catch-up.” The “catch-up” provision is intended to provide the Adviser with an incentive fee of 15.0% on all of the Fund’s pre-incentive fee net investment income when its pre-incentive fee net investment income reaches 2.352% in any calendar quarter; and
- 15.0% of the amount of the Fund’s pre-incentive fee net investment income, if any, that exceeds 2.352% in any calendar quarter is payable to the Adviser once the hurdle rate is reached and the catch-up is achieved (15.0% of all pre-incentive fee net investment income thereafter will be allocated to the Adviser).

For the period ended December 31, 2023, the Adviser earned \$4,284,172 in management fees and \$5,820,431 in incentive fees.

ALPS Fund Services, Inc. (“ALPS”) serves as the Fund’s Administrator and Accounting Agent and receives customary fees from the Fund for such services.

DST Systems Inc., an affiliate of ALPS, serves as transfer, dividend paying and shareholder servicing agent for the Fund.

U.S. Bank N.A. serves as the Fund’s custodian.

December 31, 2023

The Fund has entered into a Distribution Agreement with ALPS Distributors, Inc. (the "Distributor"), an affiliate of ALPS, to provide distribution services to the Fund. The Distributor serves as principal underwriter/distributor of shares of the Fund.

ALPS, DST Systems Inc., U.S. Bank N.A., and the Distributor are not considered affiliates, as defined under the 1940 Act, of the Fund.

5. REPURCHASE OFFERS

The Fund conducts quarterly repurchase offers of 5% of the Fund's outstanding shares. Repurchase offers in excess of 5% are made solely at the discretion of the Board and investors should not rely on any expectation of repurchase offers in excess of 5%. In the event that a repurchase offer is oversubscribed, shareholders may only be able to have a portion of their shares repurchased.

Quarterly repurchases occur in the months of March, June, September and December. A repurchase offer notice will be sent to shareholders at least 21 calendar days before the repurchase request deadline. The repurchase price will be the Fund's NAV determined on the repurchase pricing date, which is ordinarily expected to be the repurchase request deadline. Payment for all shares repurchased pursuant to these offers will be made not later than seven calendar days after the repurchase pricing date.

During the year ended December 31, 2023, the Fund completed four quarterly repurchase offers. In these offers, the Fund offered to repurchase 5% of the number of its outstanding shares as of the repurchase pricing dates. The result of the repurchase offers were as follows:

	Repurchase Offer #1	Repurchase Offer #2	Repurchase Offer #3	Repurchase Offer #4
Commencement				
Date	February 10, 2023	May 18, 2023	August 17, 2023	November 17, 2023
Repurchase Request				
Deadline	March 16, 2023	June 22, 2023	September 21, 2023	December 21, 2023
Repurchase Pricing				
Date	March 16, 2023	June 22, 2023	September 21, 2023	December 21, 2023
Amount				
Repurchased	\$9,059,712	\$8,992,336	\$11,583,175	\$14,156,344
Shares Repurchased	475,326	495,446	606,767	743,115

6. PORTFOLIO INFORMATION

Purchases and sales of securities for the year ended December 31, 2023, excluding short-term securities, were as follows:

	Purchases of Securities	Proceeds from Sales of Securities
	\$107,430,617	\$69,443,048

December 31, 2023

7. TAXES

Classification of Distributions

Distributions are determined in accordance with U.S. federal income tax regulations, which differ from U.S. GAAP, and therefore, may differ significantly in amount or character from net investment income and realized gains for financial statement purposes. Financial reporting records are adjusted for permanent book/tax differences to reflect tax character but are not adjusted for temporary differences.

The tax character of distributions paid by the Fund during the fiscal year ended December 31, 2023, was as follows:

	Ordinary Income	Tax-Exempt Income	Distributions paid from Long-Term Capital Gain	Return of Capital	Total
	\$ 31,335,392	\$	– \$	– \$	– \$ 31,335,392

The tax character of distributions paid by the Fund during the fiscal year ended December 31, 2022, was as follows:

	Ordinary Income	Tax-Exempt Income	Distributions paid from Long-Term Capital Gain	Return of Capital	Total
	\$ 26,473,418	\$	– \$ 790,185	\$	– \$ 27,263,603

Components of Distributable Earnings on a Tax Basis

The tax components of distributable earnings (accumulated losses) are determined in accordance with income tax regulations which may differ from the composition of net assets reported under U.S. GAAP. The amount reclassified did not affect net assets. The reclassification related to non-deductible excise taxes paid was as follows:

	Paid-in Capital		Total Distributable Earnings
\$	(590,893)	\$	590,893

At December 31, 2023, the components of distributable earnings (accumulated losses) on a tax basis for the Fund were as follows:

Undistributed Ordinary Income	Accumulated Capital Gains/(Losses)	Net Unrealized Appreciation/ (Depreciation)	Other Cumulative Effect of Timing Differences	Total
\$ 33,878,153	\$ (8,022,277)	\$ (35,228,996)	\$ –	\$ (9,373,120)

December 31, 2023

Tax Basis of Investments

Net unrealized appreciation/(depreciation) of investments based on federal tax cost as of December 31, 2023, with differences related to passive foreign investment companies and partnership interests, was as follows:

Gross Appreciation (excess of value over tax)	Gross Depreciation (excess of tax cost over value)	Net Unrealized Appreciation/ (Depreciation)	Cost of Investments for Income Tax Purposes
\$5,079,789	\$(40,308,785)	\$(35,228,996)	\$364,488,599

Capital Losses

As of December 31, 2023, the Fund had capital loss carryforwards which may reduce the Fund's taxable income arising from future net realized gains on investments, if any, to the extent permitted by the IRC and thus may reduce the amount of the distributions to shareholders which would otherwise be necessary to relieve the Fund of any liability for federal tax pursuant to the IRC. The capital loss carryforwards may be carried forward indefinitely. Capital losses carried forward for the year ended December 31, 2023, were as follows:

Non-Expiring Short-Term	Non-Expiring Long-Term
\$ 63,634	\$ 7,958,643

8. RISK FACTORS

In the normal course of business, the Fund invests in financial instruments and enters into financial transactions where risk of potential loss exists due to such things as changes in the market (market risk) or failure or inability of the other party to a transaction to perform (credit and counterparty risk). See below for a detailed description of select principal risks. The following list is not intended to be a comprehensive listing of all of the potential risks associated with the Fund. The Fund's prospectus provides a detailed discussion of the Fund's risks.

CLO Risk: Investments in CLOs carry risks, including, but not limited to (i) the possibility that distributions from collateral securities will not be adequate to make interest or other payments; (ii) the quality of the collateral may decline in value or default; (iii) the possibility that the investments in CLOs are subordinate to other classes or tranches thereof; and (iv) the complex structure of the security may not be fully understood at the time of investment and may produce disputes with the issuer or unexpected investment results. In addition, at the time of issuance, the CLO may not be fully invested. Until the CLO is fully invested, the debt service of the CLO may exceed the amount of interest earned from the CLO's portfolio. Though not exclusively, the Fund will typically be in a first loss or subordinated position with respect to realized losses on the assets of the CLOs in which it is invested. The Fund may recognize phantom taxable income from its investments in the subordinated tranches of CLOs and structured notes.

Between the closing date and the effective date of a CLO, the CLO collateral manager will generally expect to purchase additional collateral obligations for the CLO. During this period, the price and

availability of these collateral obligations may be adversely affected by a number of market factors, including price volatility and availability of investments suitable for the CLO, which could hamper the ability of the collateral manager to acquire a portfolio of collateral obligations that will satisfy specified concentration limitations and allow the CLO to reach the initial par amount of collateral prior to the effective date. An inability or delay in reaching the target initial par amount of collateral may adversely affect the timing and amount of interest or principal payments received by the holders of the CLO debt securities and distributions of the CLO on equity securities and could result in early redemptions which may cause CLO debt and equity investors to receive less than the face value of their investment.

The failure by a CLO in which the Fund invests to satisfy financial covenants, including with respect to adequate collateralization and/or interest coverage tests, could lead to a reduction in the CLO's payments to the Fund. In the event that a CLO fails certain tests, holders of CLO senior debt may be entitled to additional payments that would, in turn, reduce the payments the Fund would otherwise be entitled to receive. Separately, the Fund may incur expenses to the extent necessary to seek recovery upon default or to negotiate new terms, which may include the waiver of certain financial covenants, with a defaulting CLO or any other investment the Fund may make. If any of these occur, it could adversely affect the Fund's operating results and cash flows.

The Fund's CLO investments are exposed to leveraged credit risk. If certain minimum collateral value ratios and/or interest coverage ratios are not met by a CLO, primarily due to senior secured loan defaults, then cash flow that otherwise would have been available to pay distributions to the Fund on its CLO investments may instead be used to redeem any senior notes or to purchase additional senior secured loans, until the ratios again exceed the minimum required levels or any senior notes are repaid in full. The Fund's CLO investments and/or the underlying senior secured loans may prepay more quickly than expected, which could have an adverse impact on the Fund's net assets.

Liquidity Risk: The securities issued by CLOs generally offer less liquidity than below investment grade or high-yield corporate debt, and are subject to certain transfer restrictions imposed on certain financial and other eligibility requirements on prospective transferees. Other investments the Fund may purchase through privately negotiated transactions may also be illiquid or subject to legal restrictions on their transfer. As a result of this illiquidity, the Fund's ability to sell certain investments quickly, or at all, in response to changes in economic and other conditions and to receive a fair price when selling such investments may be limited, which could prevent the Fund from making sales to mitigate losses on such investments. In addition, CLOs are subject to the possibility of liquidation upon an event of default, which could result in full loss of value to the CLO equity and junior debt investors. CLO equity tranches are the most likely tranche to suffer a loss of all of their value in these circumstances.

Global Markets Risk: The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund's portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, pandemics, epidemics, terrorism, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years may result in market volatility, and may have long term effects on both the U.S. and global financial markets. For example, Russia's ongoing military interventions in Ukraine have led to, and may lead to additional sanctions being levied by the United States, European

Union and other countries against Russia. Russia's military incursion and the resulting sanctions could adversely affect global energy and financial markets and thus could affect the value of the Fund's investments, even beyond any direct exposure the Fund may have to Russian issuers or the adjoining geographic regions. The extent and duration of the military action, sanctions and resulting market disruptions are impossible to predict, but could be substantial. Any such disruptions caused by Russian military action or resulting sanctions may magnify the impact of other risks. In addition, the Israel-Hamas conflict as well as the potential risk for a wider conflict could negatively affect financial markets. Geopolitical tensions introduce uncertainty into global markets. This conflict could disrupt regional trade and supply chains, potentially affecting U.S. businesses with exposure to the region. Additionally, the Middle East plays a pivotal role in the global energy sector, and prolonged instability could impact oil prices, leading to increased costs for businesses and consumers. Furthermore, the U.S.'s diplomatic ties and commitments in the region mean that it might become more directly involved, either diplomatically or militarily, diverting attention and resources. These and any related events could significantly impact the Fund's performance and the value of an investment in the Fund, even if the Fund does not have direct exposure. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may impact your Fund investment.

Credit Risk. The Fund is subject to the risk that the issuer or guarantor of an obligation, or the counterparty to a transaction, may fail, or become less able, to make timely payment of interest or principal or otherwise honor its obligations or default completely. The strategies utilized by the Adviser require accurate and detailed credit analysis of issuers, and there can be no assurance that its analysis will be accurate or complete. The Fund may be subject to substantial losses in the event of credit deterioration or bankruptcy of one or more issuers in its portfolio. Financial strength and solvency of an issuer are the primary factors influencing credit risk. The Fund could lose money if the issuer or guarantor of a debt security is unable or unwilling, or is perceived (whether by market participants, rating agencies, pricing services or otherwise) as unable or unwilling, to make timely principal and/or interest payments, or to otherwise honor its obligations.

Companies in which the Fund invests could deteriorate as a result of, among other factors, an adverse development in their business, a change in the competitive environment or an economic downturn. As a result, companies that the Adviser may have expected to be stable may operate, or expect to operate, at a loss or have significant variations in operating results, may require substantial additional capital to support their operations or maintain their competitive position, or may otherwise have a weak financial condition or be experiencing financial distress. In addition, inadequacy of collateral or credit enhancement for a debt obligation may affect its credit risk.

Although the Fund may invest in investments that the Adviser believes are secured by specific collateral, the value of which may exceed the principal amount of the investments at the time of initial investment, there can be no assurance that the liquidation of any such collateral would satisfy the borrower's obligation in the event of non-payment of scheduled interest or principal payments with respect to such investment, or that such collateral could be readily liquidated. In addition, in the event of bankruptcy of a borrower, the Fund could experience delays or limitations with respect to its ability to realize the benefits of the collateral securing an investment. Under certain circumstances, collateral securing an investment may be released without the consent of the Fund.

Credit risk is typically greater for securities with ratings that are below investment grade (commonly referred to as “junk bonds”). Since the Fund can invest significantly in high-yield investments considered speculative in nature and unsecured investments, this risk may be substantial. The Fund’s right to payment and its security interest, if any, may be subordinated to the payment rights and security interests of more senior creditors. This risk may also be greater to the extent the Fund uses leverage or derivatives in connection with the management of the Fund. Changes in the actual or perceived creditworthiness of an issuer, or a downgrade or default affecting any of the Fund’s securities, could affect the Fund’s performance.

Valuation Risk: Most of the Fund’s investments are not traded on national securities exchanges, and the Fund does not have the benefit of market quotations or other pricing data from such an exchange. Certain of the Fund’s investments will have the benefit of third-party bid-ask quotations. With respect to investments for which pricing data is not readily available or when such pricing data is deemed not to represent fair value, the Fund’s Board determines fair value using the valuation procedures approved by the Board. There is no single standard for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments the Fund makes.

Interest Rate Risk: Interest rate sensitivity refers to the change in earnings that may result from changes in the level of interest rates. The Fund intends to fund portions of its investments with borrowings, and at such time, its net investment income will be affected by the difference between the rate at which it invests and the rate at which it borrows. Accordingly, the Fund cannot assure that a significant change in market interest risks will not have a material adverse effect on its net investment income.

9. BORROWINGS

The Fund entered into the Credit Agreement with certain funds and accounts managed by Eagle Point Credit Management, LLC, pursuant to which the Lenders agreed to provide the Fund with a term loan of \$49,000,000 and a revolver of \$6,125,000.

As of December 31, 2023, the Fund had drawn down \$49,000,000 from the term loan and \$0 from the revolver. The maximum amount outstanding during the period was \$55,125,000. The Fund is charged an interest rate of 6.90% on the initial \$28,125,000 tranche and 6.00% on the second \$27,000,000 tranche, provided that the Fund maintains an investment grade credit rating from a nationally recognized statistical ratings organization, which was the case for each day for the year ended December 31, 2023. The Fund is charged a fee on the average daily unused balance of the Credit Facility of 0.75%. The average balance outstanding and weighted average interest rate for the year ended December 31, 2023 was \$50,219,863 and 6.79%, respectively.

10. MANDATORILY REDEEMABLE PREFERRED STOCK

At December 31, 2023, the Fund had issued and outstanding 2,500 shares of Series A Term Preferred Shares, and 2,000 shares of Series B Term Preferred Shares. Both the Series A and Series B Term Preferred shares have a liquidation preference of \$10,000 per share plus accrued and unpaid dividends (whether or not declared). The Fund issued 2,000 and 500 shares of Series A Term Preferred Shares on October 27, 2021 and December 3, 2021, respectively. The Fund issued 2,000

December 31, 2023

shares of Series B Term Preferred Shares on January 28, 2022. The Series A Term Preferred Shares are entitled to a dividend at a rate of 6.00% per year based on the \$10,000 liquidation preference before the common stock is entitled to receive any dividends. The Series B Term Preferred Shares are entitled to a dividend at a rate of 5.85% per year based on the \$10,000 liquidation preference before the common stock is entitled to receive any dividends. The Series A Term Preferred Shares are redeemable at \$10,000 per share plus accrued and unpaid dividends (whether or not declared) exclusively at the Fund's option commencing on October 27, 2021 for the initial 2,000 shares issued, and December 3, 2021 for the add-on 500 shares issued. The Series B Term Preferred Shares are redeemable at \$10,000 per share plus accrued and unpaid dividends (whether or not declared) exclusively at the Fund's option commencing on January 28, 2022. Debt issuance costs related to Series A Preferred Shares of \$380,131 are deferred and amortized over the period the Series A Term Preferred Shares are outstanding. Debt issuance costs related to Series B Preferred Shares of \$510,000 are deferred and amortized over the period the Series B Term Preferred Shares are outstanding.

Series	Mandatory Redemption Date	Annual Dividend Rate	Shares Outstanding	Aggregate Liquidation Preference	Unamortized Deferred Issuance Costs	Carrying Value	Fair Value as of 12/31/23
	December 15,						
Series A	2029	6.00%	2,500	\$25,000,000	\$372,918	\$24,627,082	\$22,967,906
	March 15,						
Series B	2029	5.85%	2,000	\$20,000,000	\$289,091	\$19,710,909	\$18,419,826
				\$45,000,000	\$662,009	\$44,337,991	\$41,387,732

This fair value is based on Level 3 inputs under the fair value hierarchy. The following table summarizes the valuation techniques and significant unobservable inputs that are used to estimate the fair value for the Series A Term Preferred Shares and Series B Term Preferred Shares. The Series A Term Preferred Shares and Series B Term Preferred Shares are presented on the Statement of Assets and Liabilities at the aggregate liquidation preference, net of deferred financing costs.

Assets	Fair Value as of 12/31/23	Valuation Techniques	Unobservable Inputs	Range / Weighted Average ⁽¹⁾	Impact to Valuation from an Increase in Input ⁽²⁾
Series A Term Preferred Shares	\$22,967,906	Income Approach (Discounted Cash Flow Model)	Discount Rates	7.23% - 8.50% / 8.00%	Decrease
Series B Term Preferred Shares	\$18,419,826	Income Approach (Discounted Cash Flow Model)	Discount Rates	7.23% - 8.50% / 8.00%	Decrease

⁽¹⁾ Weighted averages are calculated based on fair value of investments

⁽²⁾ The impact on fair value measurement of an increase in each unobservable input is in isolation.

December 31, 2023

11. DISTRIBUTION REINVESTMENT PLAN

The Board approved the establishment of a distribution reinvestment plan (the "DRIP"). The DRIP was effective as of July 2, 2018, and was first applied to the reinvestment of cash distributions paid on or after October 26, 2018.

Under the DRIP, cash distributions paid to participating stockholders are reinvested in shares at a price equal to the net asset value per share of the shares as of such date.

12. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Fund enters into contracts that may contain a variety of representations that provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund expects the risk of loss to be remote.

The following table represents the Fund's unfunded commitments on CLOs held by the Fund as of December 31, 2023:

	Redemption Frequency/ Expiration Date	As of December 31, 2023
Regatta Echo CLO, Ltd.	5/12/2024	\$ 3,900,000
		<u>\$ 3,900,000</u>

13. SUBSEQUENT EVENTS

The Fund has evaluated events and transactions through the date the financial statements were issued and has identified the following events for disclosure in the financial statements:

Subsequent to December 31, 2023, the Fund paid the following distributions:

Ex-Date	Record Date	Payable Date	Rate (per share)
January 9, 2024	January 8, 2024	January 10, 2024	\$0.23
February 9, 2024	February 8, 2024	February 13, 2024	\$0.23

To the Shareholders and Board of Trustees of
Flat Rock Opportunity Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Flat Rock Opportunity (the “Fund”) as of December 31, 2023, the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the related notes, and the financial highlights for each of the five years in the period then ended (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2023, the results of its operations and its cash flows for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2023, by correspondence with the custodian, brokers, and administrative agents. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more investment companies advised by Flat Rock Global, LLC since 2018.

WHO WE ARE

Who is providing this notice? Flat Rock Opportunity Fund

WHAT WE DO

How does Flat Rock Opportunity Fund protect my personal information? To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.

Our service providers are held accountable for adhering to strict policies and procedures to prevent any misuse of your nonpublic personal information.

How does Flat Rock Opportunity Fund collect my personal information? We collect your personal information, for example, when you

- Open an account
- Provide account information
- Give us your contact information
- Make deposits or withdrawals from your account
- Make a wire transfer
- Tell us where to send the money
- Tells us who receives the money
- Show your government-issued ID
- Show your driver's license

We also collect your personal information from other companies.

Why can't I limit all sharing? Federal law gives you the right to limit only

- Sharing for affiliates' everyday business purposes – information about your creditworthiness
- Affiliates from using your information to market to you
- Sharing for nonaffiliates to market to you

State laws and individual companies may give you additional rights to limit sharing.
